

## CASE STUDY

# COLLAGEN CLEANING

Using Simply Better<sup>®</sup> HD

DOBER

With a variety of health benefits, the use of collagen has surged in the Nutraceutical and Cosmeceutical industry.

At Dober, we have performed independent studies to evaluate Collagen cleaning and were able to pinpoint the most effective cleaning parameters for different kinds of Collagen product residues that easily emulsify, not only the Collagen, but also the other ingredients in the formulation.

### Material Evaluated: Pure Beef Collagen
